REPORT
OF
THE ADJUTANT GENERAL
OF THE
STATE OF NORTH CAROLINA

FOR THE PERIOD JANUARY 1, 1950—JULY 31, 1951

To: *His Excellency, The Governor of North Carolina and Commander-in-Chief of the State Military Forces. Executive Office, Raleigh, North Carolina.*

Sir: Submitted herein is a report of the operations of The Adjutant General's Department for the years 1950 and 1951.

COMMENDATIONS

Several organizations, officers, and men of the National Guard have received the commendation of Regular Army and Air Instructors, and especially noteworthy is the commendation by General Gillem, Third Army Commander, for the National Guard of North Carolina. Such recognition on the part of federal officers is an evidence of the organization, state of training and efficiency attained, for which the officers and non-commissioned officers and enlisted personnel are to be congratulated.

STORAGE BUILDINGS

Embodied in my report for 1949 was information that as of 30 June 1949 there had been constructed and contracted for twenty-seven (27) motor storage buildings with funds provided by the Federal government at a total cost of \$679,619.69. Since, and as of 31 July 1951, nine (9) additional storage buildings and one hangar have been constructed at a further cost of \$191,277.62. In the absence of proper armories in several communities, these buildings are providing armory facilities for the local units in addition to their use for storage of heavy equipment. In addition to such occupancy, in a few there has been set up service centers, to which near by units send motor and ordnance equipment for repairs.

ARMORIES

Though the Congress of the United States has provided Federal aid to the states for the erection of armories, no funds have as yet been made available. The appropriation bill now before the Congress provides \$16,000,000 with which to construct one hundred thirteen (113) new armories to house 204 units and to expand 34 existing armories throughout the states of the union. \$8,000,000 for construction of additional motor storage buildings, warehouses, hangars, and target ranges. Armories located as follows, and originally built with Federal funds provided through Works Progress Administration in 1937 and 1938, augmented by ground and funds furnished by the respective communities, are now the property of the State:

Morganton	New Bern	Washington	Roanoke Rapids
Salisbury	High Point	Wilson	

APPROPRIATIONS

The General Assembly of 1951 made ample provision for the military department. There was also appropriated to The Armory Commission \$100,000 for each year of the biennium to be applied to armory construction and otherwise as authorized by law.

SURVEY BY PERSONNEL DEPARTMENT

The Personnel Department made a survey of our department during the period October 1950-May 1, 1951; such surveys having been and to be conducted in all State Departments. This for the classification of the work of the department by desks and to establish classifications for the employees. Minimum and maximum salary brackets were set for each classification and the salary of each employee was established. The visitations of the representative of the Personnel Department were most pleasant and satisfactory. Only two or three cases affecting individuals and their classification caused any argument, but in each a satisfactory conclusion was reached. Mr. Hilton and Mr. McDevitt, who succeeded him as Director, and all other personnel of his office were most cooperative with our suggestions and requests. The manner of conducting the survey was efficient and I express to all concerned sincere appreciation.

UNITS IN ACTIVE FEDERAL SERVICE

Since the outbreak of the undeclared war in Korea, the following organizations and units of the North Carolina National Guard have been called and are now in active Federal service:

<i>Unit</i>	<i>Commander</i>	<i>Date of Induction</i>	<i>Station</i>

156th Weather Station (Type A).....	Capt. Stephen T. Henderson, CO.....	8 Jan. 1951	Charlotte

The 378th Engineer Battalion is now serving in Korea, and it is understood, very efficiently. The guard had built up to a strength of 726 officers and 6,971 EM; total, 7,697 both Army and Air, as of 31 July prior to induction of any of our troops.

SERVICE SCHOOLS

In the year 1950, 259 officers and enlisted men of our National Guard attended Service Schools of the various branches of the service, and up to 31 July 1951, 115 officers and 406 EM had attended.

CAMPS OF INSTRUCTION—1950-1951

During the summer of 1950, our 30th Division, under command of Major General John Hall Manning, excepting the 130th Anti-Aircraft Artillery Battalion, encamped at Fort Jackson, South Carolina. The separate field artillery battalions also had their field training at Fort Jackson with the Division. In 1950, the 252d AAA Group, under command of Colonel Kenneth M. Corbett, composed of the 150th AAA Gun Bn. and the 725th AAA AW Bn., plus the 130th AAA AW Bn of the Division, encamped at Camp Stewart, Georgia. In 1951 the 30th Division, embodying all components, had its field training at Fort McClellan, Alabama. The separate field artillery battalions, not in active Federal service, also had their training at Fort McClellan at the same time with the Division. Again in 1951 the 252d AAA Group encamped at Camp Stewart, Georgia. The training of

our troops in both years was most satisfactory, especially the troops at McClellan in 1950 and received compliments and the commendation of Inspecting Officers.

ARMY AND AIR INSTRUCTORS

The present Senior Army Instructor, Colonel Lee C. Bizzell, 0-10250 Inf., with office in The Adjutant General's Department, has shown a deep interest in his assignment and has been energetic in his personal visitations to the units of the guard at their respective home stations. He is quiet, though forceful, and has a thorough understanding of the problems of the National Guard. His service to the guard of this State has been most beneficial, especially in its training. The office personnel under his supervision, assigned to duty with the several branches of the service and stationed within the area of their supervision, have rendered valuable service to our reorganized National Guard. To the non-commissioned personnel of the Army and Air Force I offer my appreciation for their valuable services. Especially, I commend the Sergeant-Instructors in the office of the Senior Instructor for their cooperation with my department and for their interest and efficient work in the interest of the National Guard.

THE UNITED STATES PROPERTY AND DISBURSING OFFICER

Lt. Colonel Michael H. Austell, who with former service in the office he now holds, and who assumed the duties of the United States Property and Disbursing Officer on 2 October 1947, continues to perform his duties with efficiency. His knowledge of his duties, the thoroughness and care with which he considers the regulations and directives pertaining to his work, are outstanding. Since World War II the State USP&DO is in active Federal service and is under control of the Chief, National Guard Bureau, Department of the Army, and is assigned to duty as Acting United States Property and Disbursing Officer for the State. Colonel Austell has been Federally recognized as a full Colonel on the State Staff, North Carolina National Guard, but since he was on active duty during World War II, and at the time of his appointment as USP&DO, he was still in U. S. service and under regulations of the Army, he has been recognized by the Army in his rank of Lieutenant Colonel, which rank he held at the end of the war.

**STAFF AND EMPLOYEES
THE ADJUTANT GENERAL'S DEPARTMENT**

The staff and employees of this department merit the respect and confidence of the State and Department of the Army and Air. The staff members are officers of experience in the National Guard and of World War II. They are efficient and perform their duties with interest and intelligence. Several employees of the USP&DO Office and of The Adjutant General's Section have many years of service with the department. It is largely through the efficiency of his staff and employees, that the head of a department may effectively "Carry On" to the benefit of the State and Federal Government.

RETIREMENT

With the background of service in the National Guard in my enlistment as a Private in Company C, 2d N. C. State Guard in 1894, followed by appointment as an officer in 1900, I requested to be relieved of active service as The Adjutant General, effective 31 July 1951, subject to retirement based upon accrued annual leave due me. My leave status expires as of 12 September 1951, upon which date I will be placed upon the retired list, thereby ending thirty-one (31) years of service as The Adjutant General of North Carolina. Lt. Colonel Thomas B. Longest, of The Adjutant General's Staff, has been designated by the Commander-in-Chief to temporarily serve as Acting The Adjutant General, effective 1 August 1951.

Sir:

We have made an examination of the accounts and records of the

DEPARTMENT OF THE ADJUTANT GENERAL
RALEIGH, NORTH CAROLINA

for the fiscal year ended June 30, 1950 and submit herewith our report consisting of two exhibits and four schedules which we believe to be self-explanatory. We also show on Exhibit "C" a statement of receipts and disbursements of the North Carolina Armory Commission. There was an unexpended balance of \$173,781.81 at June 30, 1950. This amount was transferred to 1950-51.

We inspected a representative number of invoices, payrolls and other data supporting disbursements and found them in order. The cash balance at June 30, 1950 was reconciled with the records of the State Treasurer and found in agreement.

We wish to express our appreciation to the personnel for the cooperation extended us during the course of this assignment.

Respectfully submitted,

HENRY L. BRIDGES, *State Auditor*

b. The training as a whole received by the 30th Infantry Division and the non-divisional units of the North Carolina National Guard while at the summer training camp in Fort Jackson between 2 July and 16 July 1950 was highly satisfactory, and from the instructors and commanders concerned superior to the two preceding years. In the opinion of the undersigned the credit for this may be attributed to the following reasons:

- (1) A higher standard of armory training at their home stations.
- (2) A better coordination of ranges and service practice at camp with other training requirements.
- (3) Prior to actual firing of crew-served weapons, schools were established by the units concerned with the assistance of the Regular Army Instruction Teams.
- (4) A better conception of the Army Aviation Program was brought about during this encampment by a broader semi-tactical usage of aircraft by Infantry and Artillery commanders, and more advanced flight training.
- (5) No fatalities or serious accidents occurred during the summer camp training period.
- (6) As a matter of record, one unit of the 30th Infantry Division, Service Battery, 112th Field Artillery Battalion, had 100% field training attendance for two consecutive years.

c. Unfavorable aspects of field training conducted.

- (1) The failure of many units to complete their individual weapons qualification courses prior to camp. It must be understood, however, that this was mainly due to the lack of range facilities near the home stations of the units, and lack of funds for week-end firing at Fort Bragg or Camp Butner.
- (2) Insufficient training on crew-served weapons at their home stations. Many of these weapons were issued to these units only a short time prior to summer camp.
- (3) Motor march discipline during movement to and from camp demonstrated a lack of convoy training.
- (4) The shortage of T/O & E vehicles adversely affected the training.
- (5) The shortage of T/O & E technical equipment of the 449th Field Artillery Observation Battalion seriously handicapped the armory training of this battalion.
- (6) Lack of trained radio technicians and operators.
- (7) The Atomic Warfare School for officers during certain afternoons had a detrimental effect on training. Schools of this type, if required by existing orders, should be held in the evening after the normal day's training is completed.

- (8) The present issue of two cotton, khaki, trousers and two cotton, khaki, shirts for individuals at their home stations is inadequate for camp use. Slow laundry service and a lack of proper clothing do not add to the self-respect and morale, or the appearance of the soldier.
- d. Comments concerning Regular Army administrative, training, and logistical support.
- (1) As a whole the administrative, training, and logistical support furnished by the Regular Army was excellent.
 - (2) Full cooperation was received from all personnel on the Post.
 - (3) Mess halls were better than last year, principally due to the installation of refrigeration.
 - (4) Food was excellent; preparation was improved upon by advanced training of mess personnel.
 - (5) The training teams furnished by the Third Army did an outstanding job. At this time I especially desire to commend the AAF Board Training Team from Fort Bragg, N. C. for the superior training and assistance they gave the 449th Field Artillery Observation Battalion. If the AAF Team had not provided the technical equipment needed by this Battalion, this training would have been lost.
- e. Recommendations for future encampments and the preparations incident thereto.
- (1) In order to permit small arms qualification courses to be fired prior to units attending summer camp, it is recommended that at least five additional ranges be constructed in strategic locations, as far as centers of National Guard strength are concerned, in North Carolina.
 - (2) With the NGTP's as a guide, stress those subjects for which the need was shown in the past training period.
 - (3) The training of small unit commanders to be stressed throughout the year.
 - (4) Additional organic vehicles be assigned to units.
 - (5) All officers and non-commissioned officers to receive more training in the regulations governing convoys.
 - (6) That the regimental and battalion S-3's precede the main body to camp by twenty-four hours for the purpose of reconnaissance and coordination. This would tend to reduce confusion during the first days of camp and would give the training a better start.
 - (7) More wash racks for washing vehicles be made available. If additional vehicles are furnished, more parking areas will also be required.
 - (8) Sufficient funds allocated for the repair of all ranges at summer camp prior to the arrival of the first unit to be trained.

REPORT OF THE ADJUTANT GENERAL

- (9) Every effort should be made to supply the 449th F. A. Obsn Battalion with its T/O & E technical equipment to permit training at their home stations, as well as in the field.
- (10) The advanced details in the future should be increased by at least one-third.
- (11) Members of the Rear Detachment should be paid on the date they are due to depart from camp and not sooner.
- (12) That Regular Army Instruction Teams similar to those furnished this year be made available for next year's summer camp.

- b. The training received by the 252d AAA Gp, and the 130th AAA AW Battalion of the 30th Infantry Division during the summer training period at Camp Stewart, Georgia between 6 August and 20 August 1950 was considered very satisfactory, and from the instructors and commanders concerned superior to the two preceding years. This may be attributed to the following reasons:
- (1) A higher standard of armory training at their home stations.
 - (2) More officers were capable of taking over the technical training of their units than in former years.
 - (3) Messes as a whole were excellent, and in many instances superior in the preparation and serving of food.
 - (4) It is worthy of note that the firing batteries of the 725th AAA AW Battalion, although having only been activated from three to ten months prior to camp, fired the 40 mm guns and the M16 .50 Cal machine gun at towed targets in a most commendable manner. Two of these batteries had not seen a 40 mm gun or a .50 Cal machine gun prior to field training.
 - (5) In the opinion of the undersigned the 94th Army band did an outstanding job at Camp Stewart, and is one of the best I've seen in many years.
- c. Unfavorable aspects of field training conducted.
- (1) The failure of many units to complete their individual weapons qualification courses prior to camp. This was mainly due to lack of range facilities near the home station of the units, and lack of funds for week-end firing at Fort Bragg or Camp Butner.
 - (2) The shortage of weapons and technical equipment in the 725th AAA AW Battalion handicapped the armory training of this battalion prior to going to camp.
 - (3) The 252nd AAA Group did not complete their firing for individual weapons qualification while in camp.
 - (4) The ground to air communication was poor, resulting in long delays in correcting faulty tow target missions.
 - (5) Although the field training program of the 252d AAA Group for this year's summer camp was approved by Headquarters Third Army, it is believed by the undersigned that the three-day field exercise as called for by "Section 1, General Instructions" of NGTP 44-12N should be a part of each year's summer training.
- d. Comments concerning Regular Army administration, training and logistical support.
- (1) The administration as a whole was excellent.
 - (2) The assistance and training received from the Fort Bliss and Fort Custer training teams were superior.
 - (3) There was some shortage of spare parts such as spline shafts for 40 mm guns which necessitated borrowing from other units to keep weapons operative.

e. Recommendations for future encampments and preparations incident thereto:

- (1) That additional small arms ranges be constructed in strategic locations, as far as centers of National Guard strength are concerned in North Carolina to permit the authorized qualification course to be fired prior to camp.
- (2) A rocket launcher range be provided for firing familiarization course while at camp.
- (3) In future camps better coordination between air and ground should be worked out prior to the beginning of firing of AAA weapons, so that undue delay in firing will not result.
- (4) Communication between the ranges, and between the ranges and the air should be improved.
- (5) That in future summer camps the requirements of Section 1, paragraph 4f(4), NGTP 44-12N, relating to field exercises and bivouacs be carried out, weather permitting.
- (6) That a small aggressor unit be made available for unit instruction and field problems.
- (7) That all battery grade officers be required to eat with their units during the two weeks of summer camp. It is believed they will have a better opportunity to supervise the messes with the least loss of time from training.
- (8) That Regular Army Instruction Teams similar to those furnished this year be made available for next year's summer camp.

3. *Movement to and from Field Training Site*

a. The movement by assigned and attached units for the Field Training Period was executed in thirty three (33) serials. There were ten serials in the advance party by motor, twelve in the main body by motor, and eleven in the main body by rail.

b. The advance party from Williamston, N. C. left its home station as a separate serial. The advance party from Beulaville, N. C. left its home station and joined the advance party from Wallace, N. C. These two units combined to make a serial. All advance parties from Wilmington were combined into a separate serial. The advance parties from Sanford, Southern Pines, St. Pauls, Raeford and Red Springs, N. C. all merged at a point one (1) mile south of Laurinburg, N. C. to comprise another serial. The advance parties from Bladenboro and Whiteville, N. C. joined at Whiteville, N. C. and proceeded to Green Sea, S. C. where they were met by the advance party from Fair Bluff, N. C. The advance party from Shallotte completed this serial when it joined at a point one (1) mile south of Georgetown, S. C. All of the serials in the advance party by motor left their home stations on 3 August 1950 and proceeded in their respective convoys, the last serial arriving at Camp Stewart, Ga. at 2100, 3 August 1950.

c. The serials in the main body by motor were comprised in the same manner and by the same units as those of the advance party by motor shown

in 3 (b) above. In addition to the above named serials the 3624 Ord. MM Company left its home station, Raleigh, N. C., as a separate serial. Hq & Hq Detachment NCNG also left its home station Raleigh, N. C., as a separate serial. The serials of the main body, except the two serials from Raleigh, N. C., combined and bivouaced for the night at a pre-arranged site. All serials of the main body by motor left their respective home stations on 5 August 1950, the last serial arriving at the bivouac area at 1700, 5 August 1950. The bivouac area was located about three (3) miles south of Green Pond, S. C. at Myrtle Grove Plantation, on an unimproved road. The coordinates of the bivouac area are G-3-12.1 as shown on Standard Oil map (North Carolina-South Carolina, 1949). The bivouac area was cleared at 0700, 6 August 1950. The 3624 Ord. MM Company bivouaced for the night at another site, arriving Camp Stewart, Ga. at 1700, 6 August 1950. Hq & Hq Detachment NCNG did not bivouac and arrived Camp Stewart, Ga. 1700, 5 August 1950.

d. The schedule for the movement of the main body by rail was changed the day before departure due to the shortage of Pullman cars. These cars were being used for transporting U. S. Marine Corps troops to California. As a result, the movement was made wholly by day coach. The original schedule called for three complete trains made up of Pullman cars. One train was to have taken the units from Beulaville, Wallace, and Wilmington, N. C. The second train to take units from Williamston, Red Springs, St. Pauls, Whiteville, Bladenboro, Fair Bluff and Shallotte, N. C. The third train to take units from Raleigh, Sanford and Southern Pines, N. C. These trains were to have arrived at separate times at Camp Stewart, Ga., and the personnel of the advance party made plans accordingly as to the unloading and messing of the arriving troops. These plans were still in effect when the troops arrived as no official notification had been received of the changes in schedule. The main body by rail, however, departed in two trains on 5 August 1950. The first train was made up in the following manner:

The main body by rail from Beaulaville, N. C. moved by bus to Wallace, N. C. and departed with the main body by rail from Wallace, N. C. on ACL Train, and joined units of the main body by rail in Wilmington, N. C. These units departed Wilmington, N. C. on ACL Train Extra and arrived Whiteville, N. C., where the main body by rail from Whiteville, Bladenboro, Fair Bluff and Shallotte, N. C. were combined with the main body from Wilmington. The units from Bladenboro, Fair Bluff and Shallotte, N. C. had moved by bus to arrive at Whiteville, N. C. in time to depart by train. This train departed Whiteville, N. C. and arrived Florence, S. C. where it was combined with train carrying units of the main body by rail from Williamston, St. Pauls, and Red Springs, N.C. The main body by rail from Williamston, N. C. departed by bus and arrived Rocky Mount, N. C. in time to depart on ACL Train # 89. The main body by rail from St. Pauls and Red Springs, N. C. also departed by bus and arrived Fayetteville, N. C. in time to depart on ACL Train # 89. This train arrived at Florence, S. C. and was combined with the units on ACL Train Extra from Wilmington, N. C. ACL Train Extra with all units listed above departed Florence S. C. and arrived Camp Stewart, Ga. at 0730, 6 August 1950.

The second train was made up in the following manner:

94th Army Band departed Raleigh, N. C. via SAL Train # 7, and the main body by rail from Sanford and Southern Pines, N. C. joined the same

train at their respective home stations. These units arrived Savannah, Ga., and departed on ACL Train # 189 arriving at Camp Stewart at 0809, 6 August 1950.

e. The movement for the return trip was patterned after the schedule described above in reverse order, with all units arriving 20 August 1950. The main body by rail moved according to the original schedule as Pullman cars were available. The rear party arrived at home stations 21 August 1950.

f. Proper convoy discipline was observed by the motor movements with rest and meal halts at proper intervals. No accidents or motor trouble were incurred. Train Commanders checked all trains for breakage. The entire movement, both to and from camp, was very orderly and was executed in a military manner.

4. *Campsite*

The camp site was made up of a tent area for living quarters and buildings for all headquarters, supply rooms, motor repair shops and mess halls. The enlisted men occupied squad tents with officers using pyramidal tents. Both types of tents had cement floors and electric lights but no screened side walls. Drainage was no problem as it rained only once. Mosquitoes were no problem due to the lack of rain. Post Headquarters, barber shops, theater and PX were all within walking distance.

5. *Supplies*

a. Post personnel at Camp Stewart, Ga. helped in every way possible to secure supplies for units of this command. The U.S.P. and D.O. of North Carolina had his representative at camp, and he signed for all property and distributed it to the various units, with help from the Group S-4. One warehouse was at his disposal thus making the drawing and turning in of supplies much easier. Twenty-two (22) vehicles were assigned by the Post Motor Officer to this command, which greatly reduced the transportation problem, as the organic transportation of all units is far below authorization. Supplies in general were drawn with the minimum of delay, with fullest cooperation between camp personnel and personnel of this command.

b. There were ten (10) mess halls operated by the various units and the food drawn was ample for all concerned. The mess halls were operated efficiently with little waste of food. The Food Service Coordinator of Third Army inspected all mess halls and was high in his praise of the efficient manner of operation. All mess personnel attended a pre-camp cook's school for three days prior to the arrival of the main body of troops. This school was conducted by expert instructors from Third Army and proved to be very helpful. Officers ate at the Post Officers Mess at a flat rate of \$.40 per meal. Food at this mess was below normal for the first week, but after a change of personnel, it was excellent. This was during the second week.

6. *Training*

a. Training, throughout the two week period was carried out according to the approved schedule issued prior to camp, with very few changes. All men showed great interest in all phases of training and were eager to learn. Schools were conducted for communications men, radio operators, battery clerks, first sergeants and supply personnel. The schools were very beneficial and well conducted. All gun batteries fired 90 MM at aerial towed

sleeves and anti-mechanized ground targets. These batteries scored 8 hits on the aerial sleeves. The 130th AAA AW Bn (SP) fired 40 MM and M-16 half tracks mounted with 50 cal. machine guns. The M-16's were on a loan basis. Firing was done at aerial towed sleeves, OQ-19 radio controlled planes and at anti-mechanized ground targets. Eleven hits were scored on aerial targets. The 725th AAA AW Bn, which was in its first field training period fired 40 MM and quadruple mounted 50 cal. machine guns at aerial towed sleeves and OQ-19 radio controlled planes. This unit made seven (7) hits on aerial targets and did an excellent job of firing, since they had not seen the guns until arriving at camp.

b. The Group S-2 aided by an Instructor from the Fort Bliss team made a AAAIS operations board, trained personnel, and put into operation the board during a CPX problem that was conducted.

c. (1) The 130th AAA AW Bn (SP) went on a three day field problem. Radio communication between their field headquarters and camp was maintained. The Battalion simulated the AAA defense of a division in position. Field messes were set up and food was excellent. Their regular training schedule was carried out in the field. Morale in the field was very high and the proficiency of all men increased.

(2) The 150th AAA Gun Bn conducted a two day CPX problem on the parade ground. The Battalion was set up in field positions with communications established to all batteries. For every installation set up, an instructor was assigned to explain the function of that installation to groups of men who were constantly visiting them. The purpose of the CPX was to acquaint all men in the battalion with the operation and function of the battalion as a whole. The results of the CPX were excellent, since all men were given instruction in the lay out of a gun battalion in the field.

d. The 94th Army Band, NCNG, assisted greatly in gaining the maximum benefit from the training schedule. They played for reveille, retreat, close order drill, practice for parade and at all ceremonies. The orchestra in the band played for two enlisted men dances and the band as a whole put on numerous concerts. They were requested, and played for the Georgia National Guard ceremony in conjunction with their Governors Day.

e. A records section, which had been trained during armory drills, was set up and operated during the 90 MM firing. Records were kept and results were tabulated on all firing by the gun batteries.

f. The 3624 Ord. MM Company was very helpful in the fine service rendered in the repair and maintenance of trucks and guns. Their presence greatly relieved the burden of the post ordnance personnel. They were very willing, cooperative, and efficient in helping in any way possible. Lt. Col. Foreman, State Maintenance Officer, and Lt. Fletcher, of the 3624 Ord. MM Company were helpful with their cooperation, help and advice.

g. All AW firing was conducted on "K" range which was 15 miles from camp proper, and 90 MM firing was conducted on "C" range which was about 2 miles from camp proper. Communications to these ranges was very poor and caused considerable delay at times. Air-Ground communication was very poor with only one radio being used for both ranges, which necessitated the use of two more radios to relay messages. This caused considerable delay in firing.

h. This command set up a list of events in which all units were to be judged during the full two week period and awards given for each event at the end of camp. The events were as follows:

- (1) Percentage of attendance at camp (awarded to large and small units).
- (2) Military efficiency (awarded to large and small units).
- (3) Appearance of uniforms (awarded to large and small units).
- (4) Best unit mess hall (awarded to large units only).

All units with 40 or more men were considered large. A group of 5 officers, whose identity remained unknown, judged the events, and the following were the winners:

- (1) Percentage of attendance at camp—Large—Btry B 130th AAA AW Bn (SP). Small—Medical Detachment 150th AAA Gun Bn.
- (2) Military Efficiency—Large—Btry D 130th AAA AW Bn (SP) Small—94th Army Band.
- (3) Appearance of uniforms—Large—Hq Btry 252d AAA Group Small—94th Army Band.
- (4) Best unit mess hall—Hq Btry 252d AAA Group.

There was also another award given to the Battery having the best softball team. Battery C 150th AAA Gun Bn won this award. These awards were presented at the Post Theater on 19 August 1950. Col. Bizzell, Senior Army Instructor, NCNG, made the presentations. At this assembly, the 94th Army Band was awarded the Eisenhower Trophy for excellence during the year 1949.

i. Post personnel and the AAA Instruction teams from Fort Bliss, Texas and Fort Custer, Michigan, were very helpful, cooperative and very implemental in the successful manner in which the training was carried out.

j. Training for the third field training period was well coordinated, and at all times was carried on with the aim of accomplishing all possible training that could not be accomplished with any degree of practicability during armory training.

7. *Inspections*

During the two weeks camp there were many inspections. It is felt that the type of inspections conducted, as well as the obvious interest of the inspecting officers, had a profound effect on the attitude of all. The following inspected:

- a. Col. Albergotti, and a group of officers representing the Inspector General, Third Army, who inspected all units for the full two weeks period.
 - b. Col. Hunter H. Harris, Army Instructor of the 30th Division, accompanied by Lt. Col. Shimer, G-3 30th Division.
 - c. Col. Bizzell, Senior Army Instructor, NCNG.
 - d. Lt. Col. Klein, Food Service Coordinator, Third Army.
- All inspecting officers seemed well satisfied.

8. *Recommendations*

The following recommendations are made in a constructive manner, for the benefit and best interest of all future National Guard encampments:

- a. That tents be walled and screened.
- b. That the 94th Army Band, NCNG, be attached for the 1951 field training period.
- c. That the AAA instruction team participate in future camps.
- d. That the 3624 Ord. MM Company be attached for the 1951 field training period.
- e. That extra vehicles be loaned to units of this command at all future encampments until assigned organic transportation has been considerably increased.
- f. That the U.S.P. & D.O. set-up be continued as it was during the 1950 field training period.
- g. That the monetary value of rations drawn be furnished the Group S-4 at the end of each day, as was done this year, to insure against over-drawing of the authorized rations.
- h. That the service club for EM be continued.
- i. That this headquarters be informed well in advance of the number of Reservists to be attached for training.

- l. That the pre-camp cook's school be continued.
- m. That better communications be established between air and ground during AAA firing.
- n. That the RCAT Team be returned for the 1951 field training period.
- o. That Major Longest and Lt. Liles from the Adjutant General's Department be returned for the 1951 field training period.

9. *Commendations*

a. Col. Kenneth M. Barager and his entire staff at Camp Stewart, Ga., including the AAA Instruction Teams from Fort Bliss, Texas and Fort Custer, Michigan, should be highly commended for the fine cooperation given to this command during the entire stay at camp. Post personnel continually exerted themselves in the interest of a successful camp for the troops of this command. The good spirit in which help was given greatly aided the success of the third field training period of AAA units of NCNG and made our stay at Camp Stewart, Ga. very pleasant and enjoyable.

b. Lt. Col. Frederick L. VanAtta, AAA Army Advisor, NCNG, Wilmington, N. C., Major Lee M. Kirby, AAA Army Instructor, Raeford, N. C., Capt. Edwin O. Nichols, AAA Army Advisor, NCNG, Wilmington, N. C. and their assistants who are Sgt. 1cl Alvin A. Bischoff, Sgt. John H. Highsmith, Sgt. William F. Buck, and Sgt. William E. Marler should also be highly commended for the great amount of assistance given to all units of this command, both prior to and during the two weeks encampment.

SUBJECT: *Report of Field Training, 2-16 July 1950*

TO: The Adjutant General
Raleigh, North Carolina

1. Pursuant to paragraph 3, GO No. 13, AGD, NC, dated 19 May 1950, the report of the field training period, 2-16 July 1950, Selective Service Section, Headquarters and Headquarters Detachment, NC NG, is respectfully submitted herein. Of the twelve officers who are not on extended active duty, one was granted leave of absence per paragraph 2, SO No. 385, AGD, NC, dated 9 June 1950, and the remaining eleven reported for duty 2 July 1950. All eleven were present for the entire duration of the field training period. The training was carried on in the office of State Headquarters, North Carolina Selective Service System, where records and materials were available for training purposes. Attached hereto is a copy of the field training schedule. The schedule was followed closely until Saturday, 8 July 1950. The first week's program was completed on Friday afternoon. The State Director on Friday afternoon received instructions that in view of the Korean emergencies he should reestablish all local board offices and to complete reorganization of the North Carolina Selective Service System and have it ready to immediately function in delivery of inductees to the armed forces. In view of this situation, it was felt that the personnel of the Selective Service Section could acquire practical experience in assisting with the many problems attendant to the reorganization.

2. Projects Nos. 2, 3 and 4 were carried on and the personnel assigned to those committees worked on those projects until completed. The four remaining officers were utilized in various capacities in this headquarters and were augmented by the others as they completed their assigned projects.

3. The field training schedule is based on the field training program approved by Colonel George A. Irvin, Chief, Field Division, National Headquarters, Selective Service System, in letter dated 14 June 1950. Project No. 1 was completed before the limited emergency. The solutions submitted by the three committees were developed into a composite organization evolving the most desirable features of each. The knowledge and information brought out in this discussion was of material value to the State Director in organizational planning for a State Headquarters in event of expansion due to a general emergency. Many of the thoughts developed in this discussion will be incorporated in the new organization tables and charts. Projects Nos. 2, 3 and 4 were completed as it was felt that the information thus developed would probably be of value in event the limited emergency should become general. In addition, the individuals assigned to the projects were acquiring experience that could be utilized to advantage in case of a general expansion.

4. The practical experience acquired by this staff during the second week was undoubtedly of greater value than the planned theoretical training. The officers were given individual specific assignments and without exception

completed them in a creditable manner with limited guidance. Not only is it felt that the practical experience was of benefit to them but their efforts were a real contribution to the State Director at a time of serious need.

5. In summarizing the effectiveness of the field training, it is our opinion that the group received a better understanding of the responsibilities and problems of staff members of a State Headquarters of Selective Service System. I am happy to report that after practical utilization of the services of these officers it is still my considered opinion that they are qualified to fill the positions for which they are being trained.

6. Also attached hereto is a copy of the Morning Report, Selective Service Section, Headquarters and Headquarters Detachment, NC NG, for the period 2-16 July 1950.

Respectfully,

THOMAS H. UPTON
Colonel, FC, NGUS

1. With profound sorrow, the death of

CAPTAIN GERALD BARBER GOFORTH, O-1020286

Commanding Officer, Company "M", 120th Infantry, NC NG, on 10 January 1950 is announced.

2. Captain Goforth was born in Marion, North Carolina, 1 December 1914, and later in life moved to Shelby, Cleveland County, North Carolina, where eventually he entered the Legal Profession, and where he spent the remaining years of his life. He was a graduate of the Shelby High School and, having energy and ambition, studied law at home. He then attended the University Law School at Asheville, N. C., graduating in 1936. He was a member of the North Carolina Bar Association, a member of the Methodist Church, and was a teacher in the Sunday School of his church in Shelby. An outstanding young lawyer, highly respected by his colleagues, he took an active interest in the politics affecting his community and was active in civic affairs.

3. Captain Goforth was a young man of sterling qualities; he was admired by, and had the confidence of those with whom he came in contact. In his sudden death, his community has lost a valued citizen. The National Guard has lost a most valuable, efficient, and faithful officer. Sincerest sympathy is extended his family in this hour of bereavement.

RECORD OF MILITARY SERVICE

Captain Goforth was called into active federal service during World War II in January 1945, and was admitted to the Officers' Candidate School, Fort Knox, Kentucky, 8 June 1945; appointed 2nd Lieutenant, Cavalry, AUS, upon graduation, 13 October 45 to 13 December 46. During the period of his active federal service, he served at Fort Knox, Kentucky and in the European Theater of Operations. Upon release from active federal service, he was transferred to the Organized Reserve Corps, Cavalry, on 12 November 1946, appointed a 1st Lieutenant, Infantry, North Carolina National Guard, and received his federal recognition, effective 10 March 1947. As a Lieutenant, he organized Company "M", 120th Infantry at Shelby, N. C. and was assigned to command of the Company. He was promoted to Captain, Infantry; federally recognized 8 August 1948, and continued in command of Company "M" until the time of his death.

ADJUTANT GENERAL'S DEPARTMENT
RALEIGH

20 July 1950

SUBJECT: Message From The Adjutant General,
State of North Carolina

TO: All North Carolina National Guard Personnel

1. The matter of resignation of officers and discharge of enlisted men of the Guard, because of present conditions confronting the nation, has come to the attention of National Guard authorities of the Federal Government and of the respective states.

2. The National Guard created under the acts of Congress and by state law is a military organization, its strength is gained through voluntary acceptance of a commission or voluntary enlistment. The purpose of this organization is the defense of state and home communities and the defense of our country in which we live a life of perfect freedom. The defense of which may be inconvenient to some yet failure to honorably serve and protect our well being may mean the disintegration and loss of our form of government.

3. The officer upon accepting his commission in the National Guard and the man upon enlisting subscribe to an oath through which the officer: solemnly swears that he will defend the Constitution of the United States and the State against all enemies, foreign and domestic; that he will obey the orders of the President and the Governor; that he makes this obligation freely without any mental reservation or purpose of coercion. The enlisted man acknowledges to have voluntarily enlisted under conditions prescribed by law and solemnly swears to bear true faith and allegiance to the United States and to the State, and to serve honestly and faithfully against all enemies and to obey the orders of the President and the Governor. Both

officers and enlisted men having taken their oaths have been afforded training by the government to fit them for such national or state emergency as may arise. They have accepted Federal pay for such service and training.

4. Now, that our nation is faced with an emergency, and there are possibilities that the National Guard may be inducted into Federal Service, some few have expressed the desire to sever their connection with the Guard, apparently in fear that they may have to assist in the defense of this country which has provided for them that free type of life, with the great blessings which are ours.

5. Should it become necessary to order the Guard into active Federal Service, the government looks to Guardsmen whom it has trained and paid to uphold its prestige and our form of government and to defend its honor. Young men who were called from home, business, and school with the National Guard for service on the Mexican Border in 1916 and in both World War I and II. It is possible that such a call may again come. Readjustments have taken place in the past and, if necessary, will in the future.

6. The National Guard then and now is the backbone of our national defense. The country depends on you when your services are needed. North Carolinians are as patriotic today as in the years past and no state can surpass our state in its patriotism. If a job must be done, we will do our part.

7. It is sincerely desired that in this world crisis all North Carolina National Guardsmen will fulfill their assumed obligations.

8. Desire the above matter be read by unit commanders to personnel of their command at the next assembly, and further desire that it be posted on organization's bulletin board.

J. VAN B. METTS,
The Adjutant General.

SUBJECT: Unit Funds

TO: Commanding Officers, Units North Carolina National Guard
Alerted for Induction Active Federal Service

1. The commanding officers of those units of the North Carolina National Guard which may receive an alert for active Federal service should, upon induction of their unit, balance the council book, prepare all accounts current, and draw check for any balance payable to: The Adjutant General, North Carolina, and forward the account, council book, and check to this Headquarters.

2. It is realized that following induction, for a short period of time, there may develop good reason to make small expenditures for the benefit or comfort of the men. Such expenditure, with concurrence of unit councils, will be authorized. The funds should not be carelessly expended. At the expiration of thirty (30) days following the date of induction, the account will be balanced and check for balance forwarded.

3. The funds in possession of a unit upon induction pertain to the unit under supervision of the State Adjutant General and should not be mixed with unit Federal funds, as may be accumulated.

4. Upon induction of the North Carolina National Guard in September, 1940, World War II, units of the Guard turned in approximately \$18,300.00. These funds, deposited in a trusteeship, were, upon reorganization of the Guard, following the termination of the war, paid to the unit or units organized at the community of the former unit, in the amount of the balance turned in to The Adjutant General. This action retained these monies for the benefit of the reorganized National Guard units and was of great assistance to them.

5. The possibility of changes in commanding officers, the movement of the unit to other localities, necessitating changing bank accounts, etc., will sometimes cause difficulties in drawing on the account because of changes in the responsible officers; also, loss of funds left in a bank elsewhere.

6. Commanding officers of units occupying rented armories will give notice to the lessor upon vacating the armory, pay his rent to date, and notify this

office: except, that should any records or property such as office furniture, etc., be left at the armory this office to be notified promptly, that property may be removed and any additional rental paid.

NORTH CAROLINA ARMORY COMMISSION

J. VAN B. METTS, SECRETARY

RALEIGH, N. C.

15 March 1951

The Budget submitted by the Armory Commission 1 Sept 1950 requested \$150,000 and \$300,000 for each respective year of the biennium. The Advisory Budget Commission recommended to the General Assembly \$100,000 for each year of the biennium to the Armory Commission, set up by an act of the 1947 General Assembly (HB 433, Chap 1010), to be applied to an armory fund for construction of armories and such facilities for the benefit of the National Guard of the state, and to be expended under provisions of this Act.

A brief was presented to the Joint Appropriations Committee and in order that a few members of the General Assembly, at least, may understand something of the necessity for the appropriation, and that in case of any questions, may intelligently explain this item of the budget, in case of any misunderstanding as to the reasons therefor, this letter is addressed to you.

Since the budget request was made, the 81st Congress has enacted into law Public Law 783 under its act of 1950. This act provides for federal aid to the states \$250,000,000 for expenditures over a period of five fiscal years; the federal government to provide the state 75% of the cost of an armory; the state or local government to pay 25%. It was agreed, in appearances before the Armed Service Committee of the Congress, that no funds would be requested during the remainder of the present fiscal year. It is anticipated that some funds under this act will be provided during the next fiscal year and thereafter. To meet such funds as may become available, the Armory Commission must have on hand funds to meet a federal allotment.

Under HB 1049, Chap. 1064, 1947 Acts, the General Assembly provided the Armory Commission with \$100,000 for each year of the biennium and under a further Act of the General Assembly, 1949 Session, appropriations so made to the Armory Commission was designated a Permanent Armory Fund.

Awaiting the Acts of Congress, this fund has been preserved and only expenditures made therefrom for repairs for armories in the state, erected during years 1937 and 1938 with funds provided through W.P.A., then in existence. Twenty-eight (28) armories were then constructed without any cost to the state; however, local communities furnished the ground and provided approximately 25% of the cost; the title therefor was vested in the local community. The state has taken over, under the Act creating the Armory Commission, six (6) of these armories, due to the fact that local communities had let them deteriorate during World War II, in the absence of the

National Guard in active federal service, and necessarily required repairs. Some small expenditures have been made in the examination of titles for plots more recently deeded to the state, and on which properties motor storage buildings, provided entirely from federal funds, have been erected in several communities of the state. There is now in this fund approximately \$165,000. Should the General Assembly provide an appropriation for each year of the biennium as requested, it is estimated that in further repairs to armories, or additional armories to be deeded to the state, and in modification of the motor storage buildings now and hereafter anticipated to be erected, in providing some interior work and heating facilities for those motor storage buildings now necessarily used by units of the guard as armories, in the absence of other facilities within the community, approximately \$160,000 would be expended. With the appropriation requested, we would have funds within the next biennium to match federal funds, thereby securing armories within the state.

The majority of other states have, in the past years, provided an armory fund and in many states armories have been constructed entirely at state expense. North Carolina is sadly lacking in armory facilities for its National Guard. One unit at Southern Pines is quartered in an old horse stable in the rear of the hotel; another was established in a reconditioned, old cotton gin building, at Jacksonville; others are in the upstairs of mercantile buildings—all of which are inadequate, crowded, and detrimental to the voluntary enlistment of the young men of the respective communities. These conditions certainly should be remedied if we are to maintain the National Guard, as now allotted the state by the War Department, approximating 100 units with an overall strength of around 8,000. It is anticipated that this strength, in course of time, will be built up to 120 units, with an overall strength of 13,000 officers and men.

The funds requested by the Armory Commission are necessary to the future maintenance of a well-organized and trained National Guard, and that this state may meet its obligation to the Federal government in providing its part of a National Defense Force, as well as a State protective force.

It is hoped and requested that you may look favorably upon this appropriation to the Armory Commission for the purposes mentioned, and that you will assist in providing the full membership of the General Assembly, with the information and knowledge, in order that they may with intelligence act on this appropriation.

Sincerely,

J. VAN B. METTS,

The Adjutant General

Secretary, The Armory Commission

FIELD TRAINING CIRCULAR
No. 8

19 July 1951

SUBJECT: Movements to Summer Encampment (1951), Ft. McClellan
Alabama

1. Reference is made to Par. 5, Field Training Circular No. 4, this Office, 4 June 1951.

2. Rail and bus transportation schedules covering movements to and from the summer encampment to be conducted at Ft. McClellan, Ala., 19 Aug—2 Sept 1951, as approved by Chief of Transportation, Dept. of The Army, are attached as inclosures. Schedules for shuttle movements to and from entraining railheads via commercial bus and MI and TS Routing Numbers and equipment to move heavy freight are also inclosed. Main Numbers, MRO Numbers and MI and TS Routing Numbers for each movement are listed on the attached schedules.

3. The tourist, baggage cars and baggage kitchen cars for each Main are as authorized by the Chief of Transportation. In a few instances, the final strength figures to be furnished this Office by all Units, may result in minor changes in the equipment furnished by the carriers. If such minor changes in equipment are made by the Chief of Transportation, organizations concerned will be notified by this Office, if time permits. It is believed the Chief of Transportation will make very few, if any, changes in equipment as shown for each Main Number.

4. The Chief of Transportation has requested "necessary buses" for each movement by commercial bus. Each bus movement is on a *Charter Contract* basis, therefore, Unit Commanders who will be furnished Government T/Rs for Charter bus movements to and from entraining railheads *will not* purchase or attempt to purchase bus tickets. The round trip T/R for bus movements will be turned over to the driver *on the going* movement.

5. If there is any change in the number of Officers and Enlisted Men of any organization moving by rail or bus, as will be furnished to this Office not later than 6 August 1951, reference letter this Office, Subject, Movement to Summer Encampment, Fort McClellan, Ala., dated 11 July 1951, this Office will be notified by telephone or telegram not later than 1200 hours, 14 August 1951. Unit Commanders are personally and individually responsible for immediately reporting any such changes to this Office.

North Carolina Unit Wins Third Eisenhower Trophy

Award of the Eisenhower Trophy for the third consecutive year to the 94th Army Band, North Carolina National Guard, was announced today by Major General Raymond H. Fleming, Acting Chief, National Guard Bureau.

General Fleming requested Major General J. Van B. Metts, the Adjutant General of North Carolina, to present his "personal commendations" to the officers and men of the 94th Army Band for their "outstanding record in winning the Eisenhower Trophy Award for three successive years."

Presentation of the award for outstanding performance during 1950 is expected to be made to the unit by the Governor of North Carolina or General Metts during summer field encampment.

Named for General of the Army Dwight D. Eisenhower, the trophy is awarded each year to the outstanding company-size National Guard army unit in each State and Territory and the District of Columbia.

State Boards choose the winning unit on the basis of personnel strength and attendance, outstanding performance in armory and summer field training, and unit qualifications in individual and crew-served weapons.

The unit is located at Raleigh.
